Unit B: Earth Science
Anticipation Guide
Lesson 1

Name: _____ Date: _____

T or F	Statement	T or F	Prove It (page #)
T or F	3/100 of the Earth's water is not ocean water.	T or F	
T or F	All of the waters of Earth make up the hydrosphere.	T or F	
T or F	60% of the Earth's oceans make up the hydrosphere.	T or F	
T or F	The Atlantic Ocean is the largest ocean on Earth.	T or F	
T or F	The average depth of the Pacific Ocean is 2,000 feet.	T or F	
T or F	Drinking ocean water is bad for your health.	T or F	
T or F	Salinity is the measure of how salty water is.	T or F	
T or F	In warm water, the salinity is higher.	T or F	
T or F	The temperature of ocean water varies from place to place.	T or F	
T or F	The Gulf Stream moves warm water to the waters near the poles.	T or F	
T or F	The California Current carries warm water to the waters around the equator.	T or F	
T or F	The ocean is the source of many products we use.	T or F	
T or F	Most of our table salt comes from mines.	T or F	
T or F	Ocean water becomes drinkable once the salt is removed.	T or F	
T or F	Cold water sinks below warm water, because it is heavier.	T or F
